

Project Report Template

1 INTRODUCTION

1.1 Overview

- * Economic freedom is the fundamental right of every human to control his or her own labor and property.
- * In an economically free society, individuals are free to work, produce, consume and invest in any way they Please.
- * An index of economic freedom analysis compares the jurisdiction against each other for various aspects such as trade freedom, judicial effectiveness and tax Burden.

1.2 Purpose

- * This helps in rising income and consumption for the Bulk of the population.
- * It measures the 'economic freedom' or the ability of Individuals to make their own economic decision in a Country by analysing policies and institutions of these Countries.
- * Economic freedom means that people can engage in trade with any person of their choosing. If the Government taxes or otherwise prevents people from buying or selling with people in other countries, it Reduces their freedom.

2 PROBLEM DEFINITION & DESIGN THINKING

2.1 Empathy Map

Template

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.

Build empathy

The information you add here should be representative of the observations and research you've done about your users.

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and emotions? What other feelings might influence their behavior?

Brainstorm & Idea prioritization

Use this template in your own brainstorming sessions as your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 2 hours to brainstorm
- 10 minutes to conclude

Before you collaborate

A little bit of preparation goes a long way with the session. Here's what you need to do to get going.

- 1. **Team setting**
Choose a meeting platform for the session and make sure everyone has access to the session link.
- 2. **Set the agenda**
Define the problem you're trying to solve by brainstorming.
- 3. **Brainstorming rules**
Set the rules for the session. Make sure everyone has a chance to contribute and that the session is a safe space.

Define your problem statement

What problem are you trying to solve? Frame your problem as a clear, specific statement. This will be the focus of your brainstorm.

- 1. **Key roles of brainstorming**
To solve a problem and generate ideas.
- 2. **Key to success**
Brainstorming with others.
- 3. **Brainstorming rules**
Brainstorming with others.
- 4. **Brainstorming rules**
Brainstorming with others.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

Person 1	Person 2	Person 3	Person 4

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all ideas have been shared, group each cluster into a single idea. It's okay to have ideas that are not related to the problem statement.

Prioritize

You have about 10 to 15 minutes to think about what ideas are important. Rank your ideas on the grid below. Ideas that are important and which are feasible.

Importance	Feasibility	
High	High	Agreement with other companies
High	Medium	Reducing complexity
High	Low	Reducing tax burden
Medium	High	Reducing poverty
Medium	Medium	Solving unemployment problem
Medium	Low	Increasing labour inputs
Low	High	Policies that encourage savings
Low	Medium	Technological advancement

After you collaborate

You can expect the most as an engineer or job to share with members of your company who might find it helpful.

- 1. **Quick wins**
Brainstorming ideas for the most with stakeholders to make sure they are aligned with the vision of the company.
- 2. **Keep moving forward**
Brainstorming ideas for the most with stakeholders to make sure they are aligned with the vision of the company.
- 3. **Brainstorming ideas**
Brainstorming ideas for the most with stakeholders to make sure they are aligned with the vision of the company.

4 ADVANTAGES & DISADVANTAGES

ADVANTAGES

- * It is the most conducive to widespread prosperity.
- * Nations with greater economic freedom have stronger economies,with Higher gross domestic product per person.
- * Citizens in countries that are economically free enjoy twice as much Formal education on average as those in economically repressed Nations.
- * Free trade is a key element of economic freedom.Countries that Embrace free trade enjoy more prosperity as a result.

DISADVANTAGES

- * There are of course extreme cases when economic freedom cannot Be deemed beneficial because large costs are imposed upon third Parties who are not or cannot be compensated.
- * Creates scarcity due to an inability to plan for individual needs.
- * A free market economy requires consumption to survive.
- * Equality doesn't always equate to equal opportunities.

5 APPLICATIONS

- * Areas where the economic freedom focuses on include Health,education,working conditions,and market conditions.
- * Developing of economic freedom analysis seeks to understand and Shape macro and micro economic policies in order to lift poor Countries out of poverty.

6 CONCLUSION

We came across a lot of countries economic status and their trade Freedom and we used the data to create a graph to find economic Score,unemployment rate,financial freedom and GDP growth rate of Countries.

7 FUTURE SCOPE

We have expressed our thoughts and ideas in our project.By reducing the Tax and by increasing the job vacancies we could enhance our economic freedom.
